PREFACE

This report examines the monthly inflation rate performance in Namibia as measured by the Consumer Price Index. The Namibia Consumer Price Index (NCPI) is used as the basis to calculate the rate of inflation as experienced by consumers. More than 9000 prices of goods and services are collected on a monthly basis from more than 900 retail outlets in 8 localities. The NCPI weights represent the expenditure share of each commodity in the 2009/10 Namibia Household Income and Expenditure Survey (NHIES). The Consumer Price Index is published about 15 days after the end of the reference month to which it relates.

The inflation rate measures the change in the CPI for the month under review to the previous month (month-on-month change) as well as to the corresponding month in the previous year (year-on-year change). The inflation rate is vital for purposes of economic policy-making, especially the conduct of monetary policy and to consumers in general. It is further used in a wide variety of public and private contracts for the purposes of adjusting payments (such as wages, rents, interest and social security benefits). It therefore, has substantial and wideranging financial implications for governments and businesses, as well as for households

In May 2020, the annual inflation rate slowed to 2.1 percent from 4.1 percent recorded in May 2019 while on a monthly basis, the inflation increased to 0.4 percent from -0.3 percent recorded in April 2020. The slow growth in the annual inflation in May 2020 was largely attributed to Housing, water, electricity, gas and other fuels category (from 1.9 percent to -0.6 percent); and Transport (from 7.6 percent to -0.1 percent).

The Zonal inflation rates for the month of May 2020 revealed that, in Zone 1 (Kavango East, Kavango West, Kunene, Ohangwena, Omusati, Oshana, Oshikoto, Otjozondjupa, and Zambezi) inflation rate stood at 2.3 percent on annual basis and at 0.3 percent month on month. In Zone 2 (Khomas) the annual inflation rate was estimated at 1.9 percent and at 0.5 percent month on month. In Zone 3 (// Karas, Erongo, Hardap and Omaheke) inflation rate was 1.9 percent year on year and 0.2 percent month on month.

Alex Shimuafeni

Statistician-General & CEO

Annual inflation rate continues to slow down.

The annual inflation rate slowed to 2.1 percent in May 2020 from 4.1 percent recorded in May 2019, while the monthly inflation rate for May 2020 increased to 0.4 percent compared to a deflation of 0.3 percent obtained in April 2020.

Box 1: Key highlights

- o The annual inflation rate stood at **2.1 percent**
- o The annual inflation rate for Goods estimated at 2.3 percent
- o The annual inflation rate for Services stood at 1.7 percent
- o The average annual inflation rate for May 2019 to May 2020 stood at 2.9 percent.
- o The twelve-month average annual inflation rate for June 2019 to May 2020 estimated at **2.8 percent**
- o Zone 1 recorded the highest annual inflation rate of 2.3 percent while Zone 2 and 3 both registered inflation rates of **1.9 percent**

BOX 2: Contributions of the different groups to the annual percentage change in NCPI

Groups	Contributions (%)			
	April 2020	May 2020		
Food and non-alcoholic beverages	0.8	0.8		
Alcoholic, beverages and tobacco	0.1	0.3		
Clothing and footwear	0.0	0.0		
Housing, water, electricity, gas & other fuels	-0.1	-0.2

Health	0.1	0.1		
Transport	0.0	0.0		
Communication	0.0	0.1		
Recreation and culture	0.2	0.2		
Education	0.3	0.3		
Hotels, cafes and restaurants	0.0	0.0		
Miscellaneous goods and services	0.3	0.3		
All items	1.6	2.1		

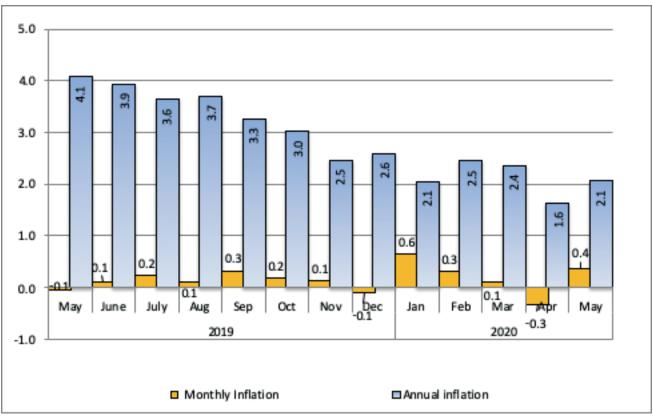

Overall inflation rate

For the month of May 2020, the annual inflation stood at 2.1 percent, down from 4.1 percent recorded in May 2019, a decrease of 2.0 percentage points. The slowdown in the annual inflation rate between May 2019 and May 2020 emanated mainly from the categories of Housing, water, electricity, gas and other fuels, which accounts for 28.4 percent of the overall basket of NCPI, that declined to -0.6 percent compared to an increase of 1.9 percent recorded in May 2019. Other categories that contributed to the deceleration of the inflation were Education that fell to 7.0 percent from 12.0 percent recorded in May 2019 that accounts for 3.65 percent of the overall basket of NCPI, Clothing and footwear, from 0.0 percent to -1.3 percent and accounts for 3.05 percent of the overall NCPI basket and Hotels, cafes and restaurants from 4.7 percent to 0.8 percent and accounts for 1.39 percent of the overall NCPI basket.

For the period May 2019 and May 2020, the lowest annual inflation rate was registered in April 2020 at 1.6 percent while the highest rate of 4.1 percent was witnessed in May 2019.

The monthly inflation rate increased to 0.4 percent in May 2020 compared to -0.3 percent recorded in the preceding month.

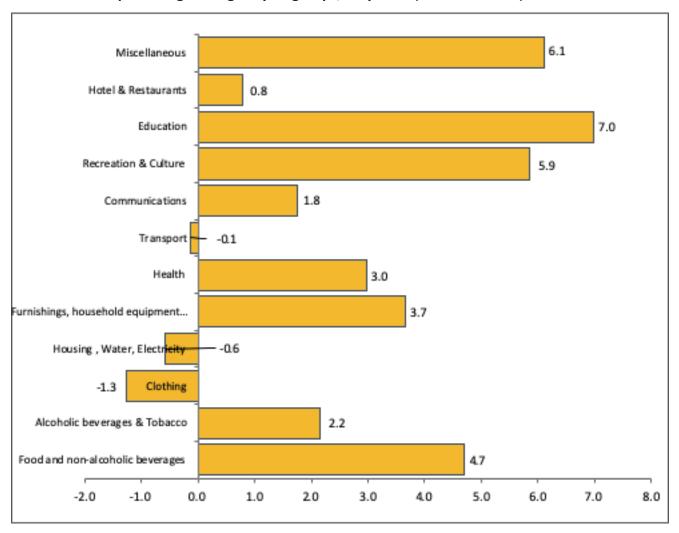

Chart 1: Monthly and annual percentage changes; May 2020 (Dec 2012 = 100)

Annual inflation rate by main categories

The Education category recorded the highest rise in annual inflation with a rate of 7.0 percent in May 2020, followed by Miscellaneous goods and service at 6.1 percent, Recreation and culture at 5.9 percent while Food and non-alcoholic beverages stood at 4.7 percent. Clothing and footwear and Housing, water, electricity, gas and other fuels and Transport categories recorded declines of -1.3 percent and -0.6 percent and -0.1 respectively.

Chart 2: Annual percentage changes by all groups, May 2020 (Dec 2012 = 100)

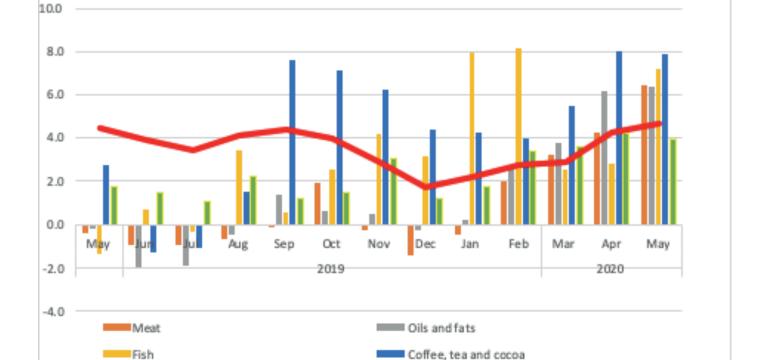

Selected main categories' annual inflation rates

Food and non-alcoholic beverages

Food products n.e.c

The annual inflation rate for this category stood at 4.7 percent in May 2020 compared to 4.4 percent registered during the same period last year, an increase of 0.3 percentage points. The increase in this group emanated mainly from price increases in Meat (from -0.4 percent to 6.5 percent), Oils and fats (from -0.2 percent to 6.4 percent), Fish (from -1.4 percent to 7.2 percent), Fruit (from 8.8 percent to 16.5 percent), Coffee, tea and cocoa (from 2.7 percent to 7.9 percent) and Food products n.e.c (from 1.7 percent to 4.0 percent).

The monthly inflation rate for this category decreased to 0.1 percent from 1.1 percent recorded a month earlier.

FOOD AND NON-ALCOHOLIC BEVERAGES

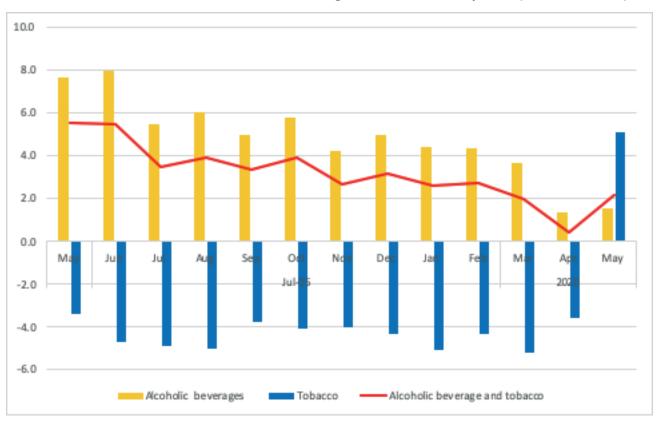

Chart 3: Annual inflation rates for selected food sub-categories; May 2020 (Dec 2012 = 100)

Alcoholic beverages and tobacco

The annual inflation rate for the Alcoholic beverages and tobacco group stood at 2.2 percent in May 2020 compared to 5.5 percent registered in May 2019, resulting in a decrease of 3.3 percentage points. The downward movement of inflation rate in this category during this period was due to the price decreases in Alcoholic beverages from 7.6 percent to 1.6 percent. During stage 2 of the state of emergency, liquor outlets remained closed whereby buying and selling of alcoholic beverages remained prohibited. Based on this reason, NSA applied a class mean imputation method to estimate price quotes for alcoholic beverages for the month of May 2020.

The monthly inflation rate for this group increased to 0.5 percent from 0.0 percent registered a month earlier.

Transport

In May 2020, the annual inflation rate for the Transport category stood at -0.1 percent, resulting in a decrease of 7.7 percentage points from 7.6 percent recorded in May 2019. The decrease was mainly reflected in the price levels of Public transportation services (from 20.1 percent to 13.7 percent) and Operation of personal transport equipment (from 5.7 percent to -6.2 percent).

On a monthly basis, Transport recorded an increase of 0.8 percent from -3.6 percent recorded in April 2020.

Chart 5: Annual inflation rate for Transport; May 2020 (Dec 2012 = 100)

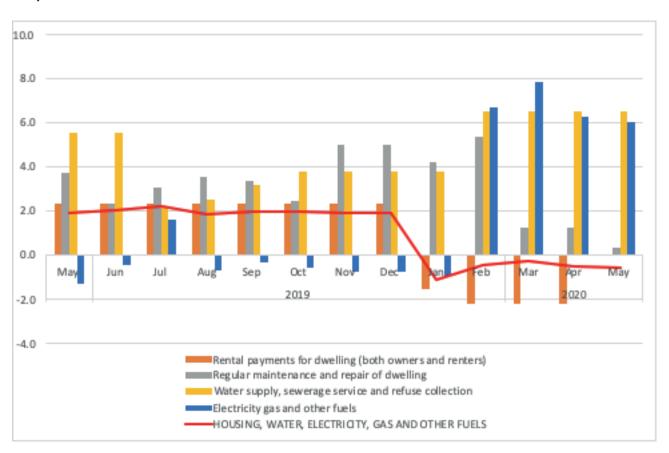

Housing, water, electricity, gas and other fuels

The annual inflation rate for Housing, water, electricity, gas and other fuels category stood at -0.6 percent in May 2020 compared to 1.9 percent recorded during the same period of 2019. The decline was mainly as a result of decreases experienced in the price levels of Rental payments for dwelling which declined by 4.6 percentage points and Regular maintenance and repair of dwelling which declined by 3.4 percentage points.

On a monthly basis, the inflation rate for this category was stagnant compared to -0.2 percent recorded last month.

Chart 6: Annual inflation rate for Housing, water, electricity, gas and other fuels; May 2020 (Dec 2012 = 100)

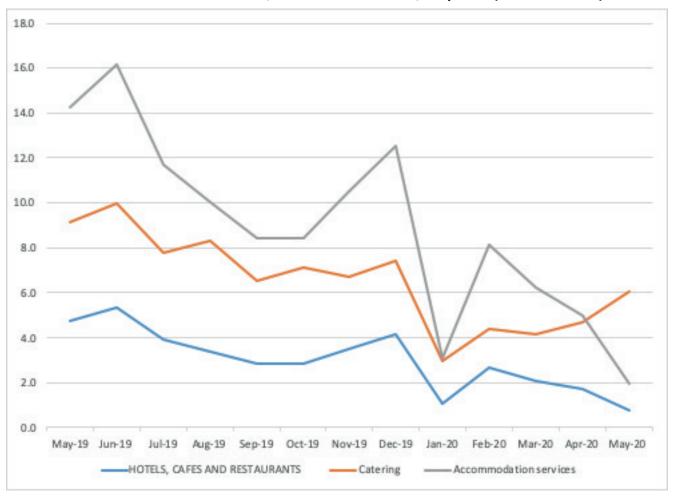

Hotels, cafes and restaurants

In May 2020, the annual inflation rate for this component slowed to 0.8 percent compared to 4.7 percent obtained during the same period a year earlier. The decrease in the price levels of this component emanated mainly from Accommodation services (from 5.1 percent to -4.1 percent).

The monthly inflation rate for this group decreased to -0.6 percent in May 2020 compared to 0.2 percent recorded a month earlier.

Chart 7: Annual inflation rate for Hotels, cafes and restaurants; May 2020 (Dec 2012 = 100)

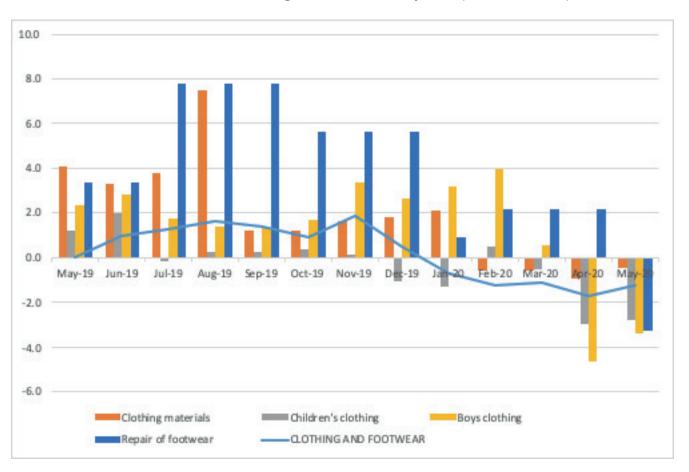

Clothing and footwear

During the month of May 2020, the annual inflation rate for Clothing and footwear group stood at -1.3 percent compared to 0.0 percent recorded in May 2019. The decrease was mainly attributed to price decreases in Boys clothing (from 2.3 percent to -3.4 percent), Children's clothing (from 1.2 percent to -2.8 percent), Clothing material (from 4.1 percent to -0.5 percent) and Repair of footwear (from 3.4 percent to -3.3 percent).

The monthly inflation rate for this group increased to 0.2 percent in May 2020 compared to -0.5 percent registered during the preceding month

Chart 8: Annual inflation rates for Clothing and footwear, May 2020 (Dec 2012 = 100)

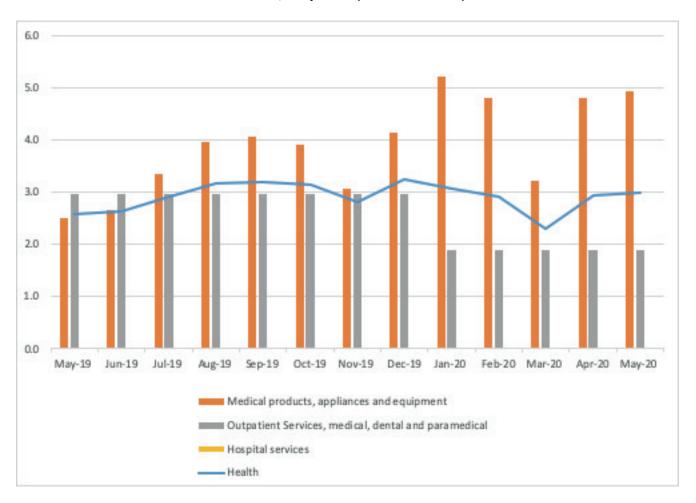

Health

The annual inflation rate for the Health group stood at 3.0 percent in May 2020, up from 2.6 percent recorded during the same period last year. The upward movement emanated mainly from increases recorded in the sub- group of Medical products, appliances and equipment (from 2.5 percent to 4.9 percent).

On a monthly basis this category recorded 0.3 percent in May 2020 compared to 0.2 percent registered a month earlier.

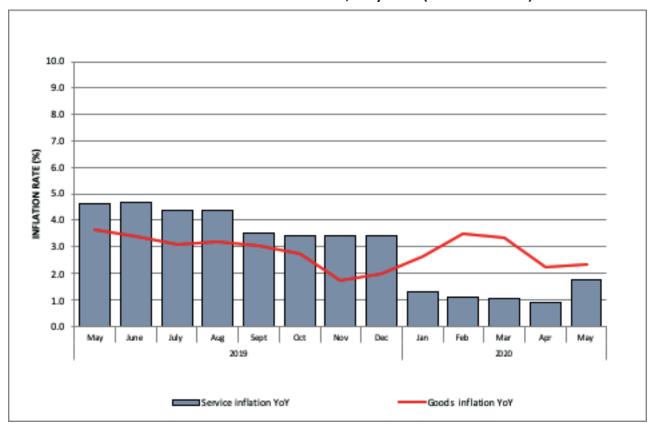

Chart 9: Annual inflation rate for Health, May 2020 (Dec 2012 = 100)

Goods and Services inflation rates

For the month of May 2020, the Index for Goods and Services stood at 141.0 and 138.7 compared to the corresponding indices of 137.8 and 136.3 recorded during the same period last year. The monthly and annual inflation rates for Goods were 0.0 percent and 2.3 percent, respectively, while for Services the inflation rate were 0.9 percent and 1.7 percent.

Chart 10: Goods and Services annual inflation rates; May 2020 (Dec 2012 = 100)

Zonal CPIs

Zone 1 CPI (Northern Part)

2019. The annual inflation rate fell to 2.3 percent in May 2020 from 3.3 percent recorded in May last year, a decrease of 1.0 percentage points. The decrease in the annual inflation rate resulted mainly from declines in the price levels of Transport (from 7.6 percent to 0.4 percent); Alcoholic beverages and tobacco (from 6.7 percent to 0.7 percent); Clothing and footwear (from -0.9 percent to -1.8 percent) Health (from 3.8 percent to 2.4 percent); and Housing, water, electricity, gas and other fuels (from -0.1 percent to -0.5 percent).

On a monthly basis, the inflation rate for May 2020 stood at 0.3 percent compared to -0.4 percent recorded last month.

Zone 2 CPI (Windhoek Area)

The All Items Index for May 2020 increased to 136.4 from 133.9 recorded in May 2019 recording an annual inflation rate of 1.9 percent compared to 4.1 percent registered in May a year earlier. The annual inflation rate was 2.2 percentage points lower than the inflation rate recorded in May 2019. The decrease was mainly witnessed in Hotels, cafes and restaurants (from 8.9 percent to 0.4 percent), Education (from 15.2 percent to 6.4 percent), Transport (from 6.7 percent to 0.0 percent), Housing, water electricity, gas and other fuels (from 3.3 percent to -1.1 percent) and Alcohol beverage and tobacco (from 2.8 percent to 2.5 percent).

On a monthly basis, the inflation rate stood at 0.5 percent compared to -0.4 percent recorded during the previous month

Zone 3 CPI (Eastern, Southern & Western Parts of Namibia)

The Zone 3 All Items Index for May 2020 stood at 146.8 compared to 144.0 recorded during the same period last year. The annual inflation rate slowed to 1.9 percent in April 2020 from 5.1 percent recorded in May 2019, a decrease of 3.2 percentage points. The decline was mainly from decreases in prices recorded in all the groups, except for Miscellaneous goods services which increased from 1.8 percent to 4.6 percent in May 2020 and Furnishing, household equipment and routine maintenance of the house which remains steady at 2.6 percent.

On a monthly basis, the inflation rate for April 2020 stood at 0.2 percent compared to -0.2 percent recorded last month.

BOX 3: NCPI BASKET WEIGHTS

Inflation is calculated based on a basket of goods and services, containing a representative sample of the goods and or services commonly consumed in a country, and weighted in accordance with the relative percentage of expenditure allotted to each of the said goods at household level. The price of these goods and services are then tracked over time, to illustrate the change in the cost of living over time. As spending patterns change, new products and services are added to the basket, and the basket is reweighted so as to better capture the current spending patterns of the consumer at the current point in time.

As such, the inflation basket is generally reconstituted every five years. In Namibia, the basket was last rebased in 2013, using household expenditure data collected in the 2009/10 Household Income and Expenditure Survey. The basket now contains over 350 items, grouped into 12 categories and 55 sub-categories, for which prices are collected on a monthly basis from more than 900 retail outlets.

Namibian inflation however, is largely determined by three categories of the overall NCPI basket, namely: (i) Housing, water, electricity, gas and other fuels, (ii) Food and non-alcoholic beverages and (iii) Transport, which cumulatively make up just under 60 percent of the total inflation basket. Additionally, following the rebasing of the NCPI basket in 2013, "Alcoholic beverages and tobacco" make up an additional 12.6 percent of the basket, meaning that the four largest categories represent well over 70 percent of the total basket. As such, a large increase in inflation in these categories has a greater impact on the overall inflation than increases in the lower weighted categories. Thus, it is rare to see major increases in overall inflation attributed to the lower weighted categories, despite the fact that these categories may have seen relatively high inflation in their own right.

Category	Weights (%)
Housing, Water, Electricity, Gas and Other Fuels	28.36
Food and Non- Alcoholic Beverages	16.45
Transport	14.28
Alcoholic Beverages and Tobacco	12.59

Annex 1: Background on Zonal Consumer Price Index

Since January 2005, the then Central Bureau of Statistics (CBS) under the National Planning Commission (NPC) published a monthly Consumer Price Index known as the Namibia Consumer Price Index (NCPI) for replacing the Interim Consumer Price Index (ICPI) which has been in existence since 1993. The Index was known as the Interim Consumer Prices Index-Windhoek and refers to the expenditure patterns of the households which resided in Windhoek. The weights and items were derived from a Household Expenditure Survey covering 800 households conducted during October and November 1985.

The NCPI is designed to cover the entire economic territory of the country and includes national, urban and rural households of all income groups as derived from the Namibia Household Income and Expenditure Survey (NHIES). For the compilation of the National CPI, all administrative regions of the country were grouped into three Zones, with each zone considered as one geographic area as follows.

Zone 1 covers the expenditure patterns of the regions in the northern part of the country namely Kavango East, Kavango West, Kunene, Ohangwena, Omusati, Oshana, Oshikoto, Otjozondjupa and Zambezi. Prices are collected from the following towns: Katima Mulilo (76 retail outlets covering mainly the Central Business District); Oshakati (107 retail outlets covering mainly Game Shopping Center, Yetu Shopping Center, Oshana Mall, Marula Mall and Ongwediva); and Otjiwarongo (114 retail outlets covering mainly the Central Business District, Orwetoveni, and the Industrial Area).

Zone 2 covers the expenditure patterns of Khomas region and the price collection covers Windhoek (218 retail outlets covering mainly Khomasdal, Katutura, Northern Industrial Area, Southern Industrial Area, Pioneers Park, Hochland Park, Prosperita, Klein Windhoek, Eros and Kleine Kuppe).

Zone 3 covers the expenditure patterns of //Karas, Erongo, Hardap, and Omaheke regions with prices being collected from Keetmanshoop (86 retail outlets covering mainly Central Business District, West Dene and Tseiblagte); Swakopmund (108 retail outlets covering Central Business District, Mondesa, Tamariskia, Idustrial Area); Mariental (61 retail outlets covering mainly Central Business District and Ombili); as well as Gobabis (59 retail outlets mainly covering the Central Business District), respectively.

The localities identified for price collection were selected based on a mixed criterion of:

- (i) the relative importance of the locality as determined by its relative share exceeding 30 percent of the total household expenditure at national level;
- (ii) geographic distribution of economic activities; and
- (iii) regional capitals.

Annex 2: Zonal NCPI weights

		Weights		
	NCPI MAIN GROUPS	ZONE 1	ZONE 2	ZONE 3
1	Food and non-alcoholic beverages	20.4	12.3	16.5
2	Alcoholic beverages and tobacco	13.1	11.0	14.3
3	Clothing and footwear	3.9	2.4	2.6
4	Housing, water, electricity, gas and other fuels	25.8	32.7	25.5
5	Furnishings, household equipment and routine maintenance of the house	5.8	5.2	5.3
6	Health	1.6	2.3	2.2
7	Transport	14.7	13.0	15.6
8	Communications	3.5	3.8	4.4
9	Recreation and culture	2.2	4.8	3.7
10	Education	3.2	4.5	3.1
11	Hotels, cafes and restaurants	0.9	2.0	1.1
12	Miscellaneous goods and services	4.8	5.8	5.6
	All items	100.0	100.0	100.0

Additional detailed information on Zonal CPIs see excel tables as Annex.

Note: The above Zonal CPIs time series run from 2018 only for illustrative purposes and for comparing with the previous years. However, the figures for Zonal CPIs are available since the NCPI inception in 2002.
