

CIF & MANWU ONLINE PROTEST IN SUPPORT OF NAMIBIAN CONSTRUCTION INDUSTRY

21 June 2023

✦ Introduction

This is why we need your support and hope for you to enter our competition.

We are calling for changes in the construction sector that include that the Namibian Government will commit itself and announce publicly the following:

1. That the project for the road upgrade between Usakos and Karibib is cancelled immediately and re-advertised in smaller lots
2. and that the technical specifications be reviewed;
3. that there will be a deliberate effort to engage majority Namibian-owned contractors on all infrastructure and building projects and that projects will be sized accordingly

4. that Government will play its part in creating an environment for decent work in the construction sector; i.e. ensuring that maximum employment opportunities are created for Namibian workers

5. that Government supports the “optimal development” of the construction sector where there is space for every-sized contractors: majority-Namibian-owned SMEs, majority Namibian-owned mid-sized contractors, majority Namibian-owned large-size contractors, and only then foreign contractors or non-majority Namibian-owned contractors;

6. that joint ventures between majority Namibian-owned contractors must be given preference;

7. that “tenderpreneurism” will not be permitted any further; and

8. that Government commits itself to the establishment of construction council as soon as possible as it would be in the interest of both the private sector as well as the public sector.
